

Wake & Dress

I wake up and put on my favorite shorts and t-shirt. They're old and comfy...we're gonna get dirty today!

Breakfast

I like a smoothie and toast. We buy jam from school, it's rosella flavour and its sweet and sour and yummy.

Biobus

Riding on the BioBus with my friends is fun. The big kids in High School made our bus run on old cooking oil.

Arrive School

I run with my friends down to our classroom. It's cool 'cause looks like a giant bamboo treehouse.

Thematic Class

The thematic class is my favourite. We're doing 'Settlers' and its about history, migration, politics, trade, community and team-work...we made our own 'country' shelters and traded things like bamboo sticks and food.

Break

Time for snack! My favourite is mango. The Ibu's in the kitchen cut it up super fast, like fruit ninjas!

Math in the Rain

Its raining, so we grab a giant banana leaf as an umbrella and go to the river vortex for our math class.

Lunch Time

Wow, it's lunch time already. Today I'm having my favourite Indonesian dish - love mie goreng!

Helping Hands

My class helps pack up the lunch mats. We have a funny competition: who can roll the mats up the fastest!

Gardening

Time to check our seedlings before music class. We add some 'worm juice' to give them an extra boost along!

Music Class

I choose the Gamelan for music class my teacher says I'm becoming a master. Cool, he's one of the Indonesian Gamelon masters.

Free Time

Some days I do yoga or art after school but today, I want to get home early, and to take my dog to the beach!
