

Innovation Hub: Product Development Internship Description

Green School Bali is a progressive, dynamic and wall-less Pre-K to Grade 12 educational institution, located in the lush jungle of Bali, Indonesia.

Internship Description:

Green School's Innovation Hub (i-Hub) is a green, rapid prototyping facility that is changing the face of education. Inspiring entrepreneurial problem-solving. Student ideas are incubated, tested, rethought, refined, and finally brought to life, under the guidance of the community, visiting entrepreneurs, local artisans, and teachers.

The Intern will be responsible for supporting the development of iHub projects. Support will be given fully by the iHub team, but the intern is considered to have knowledge in product development (bamboo/ woodworking or natural products) that will be able to help lead the program and workshop.

Role Description:

Project Support:

- Develops ideas as part of the team or creates design concepts using computer software.
- Participate in product ideating, prototyping, and implementing ideas into real work.
- Assist in developing new or existing projects through innovative and creative ideas.
- Developing learning modules for the Green School's students related to product development.

Requirements:

- Creative and innovative in product development (bamboo/woodworking or natural products).
- Having knowledge in creating design concepts using computer software.
- Basic google APPS knowledge (google docs, google sheets, google site, google slide, etc.)
- Intermediate skills in Microsoft Office, PowerPoint, Excel
- Good communication skills in English.
- Well organized.
- Adaptive & responsive in every situation.
- Eagerness to learn something new.
- Collaborative and cooperative to work in a team.

Working Hours: 8.00 AM - 4.00 PM | **Duration:** Jan-Jun 2022 | **Wage/Salary:** Paid
